

## Professional Summary

---

With 17 years of experience as a Plant Operator, I have honed a diverse set of skills in problem-solving, critical thinking, and team collaboration. Recently transitioned into the IT field, I am now dedicated to building a career as a Software Developer. Equipped with a strong foundation in software engineering principles and hands-on experience with modern technologies, I am eager to contribute my expertise to innovative projects and drive impactful solutions.

### Excavator Operator Below and Above 10 Tonne Tracked with Lifting Operations

2019 - PRESENT

*P FLANNERY PLANT HIRE, LONDON, ENGLAND, UK*

- Operated excavators below and above 10 tonnes, including tracked machines with lifting operations.
- Worked in limited spaces such as live motorways, executing precise maneuvers with a 180-degree swing restriction, or with height restrictions underneath overhead high voltage lines.
- Operated excavators using Global Positioning Systems like Leica or Trimble, trimming, finishing, or digging with an accuracy of  $\pm 5$ mm.
- Upgraded motorways to smart motorways, including work on major projects such as the SM4RT MOTORWAY JCT 4 TO 12 (M4).
